Jenis Informasi atau Fakta Material	Klarifikasi Kejadian Tidak Wajar pada Saham JELI
Uraian Informasi atau Fakta Material	Pada perdagangan saham Perseroan terdapat penawaran jual sebanyak sekitar 68.000.000 lot, jauh melebihi total saham Perseroan yang tercatat sebanyak 12.660.000 lot maupun saham yang tersedia untuk diperdagangkan di pasar (free float) sebanyak 2.660.000 lot. Kondisi tersebut memicu tekanan jual (panic selling) di pasar. Sehubungan dengan kejadian tersebut, Perseroan merasa dirugikan karena harga saham JELI menjadi tidak terkendali. Hal ini juga berdampak pada reputasi saham JELI. Berdasarkan pertemuan dengan Bursa Efek Indonesia (BEI) pada tanggal 30 Juli 2026, BEI memberikan klarifikasi bahwa kejadian tersebut bukan disebabkan oleh gangguan sistem BEI, serangan siber (cyberattack), maupun gangguan teknis (glitch) pada sistem perdagangan BEI. Penelusuran awal BEI menunjukkan adanya kesalahan pada sistem Anggota Bursa (AB) yang mengakibatkan munculnya penawaran jual dalam jumlah yang jauh melebihi jumlah saham Perseroan yang tercatat. Permasalahan pada sistem AB tersebut saat ini masih dalam proses penanganan. Perseroan tetap berkomitmen pada keterbukaan informasi, penerapan tata kelola perusahaan yang baik (Good Corporate Governance), serta komunikasi yang transparan dengan investor, regulator, dan pemangku kepentingan. Perseroan juga terus berfokus pada pengembangan usaha dan peningkatan kinerja untuk menjaga fundamental bisnis di tengah dinamika ekonomi global serta menciptakan nilai jangka panjang bagi pemegang saham.

Dampak kejadian, informasi atau fakta material tersebut terhadap kegiatan operasional, hukum, kondisi keuangan, atau kelangsungan usaha Emiten atau Perusahaan Publik	Persepsi pasar yang negatif memicu tekanan jual (panic selling) sehingga menyebabkan harga saham JELI bergerak tidak wajar dan berdampak pada reputasi saham Perseroan. Namun demikian, kondisi tersebut tidak berdampak material terhadap kegiatan operasional, kondisi hukum, kondisi keuangan, maupun kelangsungan usaha. Operasional dan fundamental Perseroan tetap terjaga.

Type of Material Information or Facts	Clarification on the Unusual Trading Activity in JELI Shares

Description of Material Information or Facts	During the trading of the Companys shares, based on information obtained by the Company from third parties, sell orders of approximately 68,000,000 lots were recorded in the order book. This volume significantly exceeded the total number of the Companys listed shares on the Indonesia Stock Exchange, amounting to 12,660,000 lots, including 2,660,000 lots held by public shareholders (free float). The recorded sell orders represented orders recorded in the order book and did not, by themselves, indicate that such orders had been executed. The emergence of the aforementioned sell order queue has attracted market attention. During the same period, trading in JELI shares experienced increased selling pressure and volatility, which could potentially affect investors perception of the trading of the Companys shares. In light of these circumstances, the Company hereby provides this disclosure of information to ensure that accurate, adequate, and balanced information is available to investors and stakeholders. Based on a meeting with the Indonesia Stock Exchange (IDX) on 30 July 2026, the IDX clarified that the incident was not caused by an IDX system disruption, a cyberattack, or a technical malfunction (glitch) in the IDX trading system. According to the IDXs preliminary findings, the incident resulted from an error in the system of a Stock Exchange Member (Exchange Member), which caused sell orders to appear in volumes far exceeding the total number of the Companys listed shares. The issue relating to the Exchange Members system is currently being addressed. The Company remains committed to information transparency, the implementation of Good Corporate Governance (GCG), and transparent communication with investors, regulators, and other stakeholders. The Company will continue to focus on business development and operational performance to maintain strong business fundamentals amid global economic dynamics and create long term value for shareholders.
Impact of event, material information or facts towards Issuers or Public Company's operational activities, legal, financial condition, or going concern	Negative market perception triggered selling pressure (panic selling), resulting in abnormal movements in the trading price of JELI shares and affecting the market perception of the company's shares. Nevertheless, this condition did not have a material impact on the company's operational activities, legal condition, financial condition, or business continuity. The Company's operations and fundamental conditions remain well-maintained.

Thus to be informed accordingly.

Respectfully,

PT Niramamas Utama Tbk
